

Psychology

(A Level, AQA)

Psychology is the study of the mind and behaviour. It asks why people feel, think and act the way they do. Studying Psychology will help you develop a number of skills, including how to:

- view the world from different perspectives
- develop critical reasoning skills
- put across your point of view fluently
- plan and conduct scientific investigations
- analyse and interpret data

This means that Psychology students are not just knowledgeable of psychological subject matter, but are well equipped for all sorts of study or employment opportunities. A level Psychology involves essay writing, class discussion, reading and research.

Entry Requirements:

GCSE grade 5 in Mathematics and a grade 5 in English.
